Mr. Whitelaw, of Brandon, was in Rapid City last week inspecting the creamery butter. He said it was impossible to get a good article for table use, but he has found it at last. He bought considerable and made arrangements for regular weekly shipments. He pronounces it to be the best creamery butter in the country. Score one for R.C.

A Beresford correspondent writes: "Mr. R. E. Hopkins and Mrs. Johnston, of Winnipeg, were united in marriage at the residence of Mr. Joseph Moor, on Thursday, August 29th, in the presence of a few relatives and friends. As great pains had been taken to keep the affair very quiet, great was the surprise of the company after arriving at the home of Mr. Hopkins to be startled by the cry of 'Fire!' and rushing to the door were greeted by a bon-fire salute.

Boats are now and have been all summer quite numerous in the neighborhood of Minnedosa. It is all very well for people to cry out that it is a sin to kill the harmless brutes out of season, but it seems to be a greater sin to be compelled to keep your children from school on their account. If some of the gallant sportsmen, who waste so much time, powder and shot in a few harmless ducks, chickens or turkeys, would bring down some of the brutes, it would be a great relief to many settlers close to town.

We are often called upon to report in these columns the death of some dear departed ones, but seldom has it been our duty to chronicle the death of two dear little children in the same family on the same day. Mr. and Mrs. Thos. Sibals have our heartfelt sympathy and that of the whole community in the loss of their beloved children, who both died on the same day within a few hours of each other. The funeral was largely attended by sympathizing friends and acquaintances. —Rapid City Reporter.

The item which appeared in the musical column of the Free Press, crediting a Calgary composer and firm of publishers with issuing the first piece of music written and printed wholly in the Northwest Territories, requires a slight amendment. The honor of composing and printing the first piece of music in the Territories belongs to Mr. J. J. Young, now of Mossomin, who published in 1889 two pieces of church music which received favorable notice in the press at the time, and which was printed at the Lander office at Regina.

Mr. Thomas Nichol, of Wawanesa, has returned home to-day. He said to a Free Press reporter that he had been at three different threshings a few days ago, and that at one, grain was going 10 bushels to the acre, at another 25, and at the other 20, so that he believed 18 bushels to the acre might be set down as a very fair estimate of the yield in the Wawanesa district. A curious feature in the distribution of autumn this year, is that farms which are not showing smutty wheat are found to be entirely free from it, while those which are smutted have no fields free from the fungus. —Free Press.

Mr. W. J. Kennedy, near Virden, cut a field of wheat on August 20th that was sown on May 10th, being about 100 days from sowing to reaping. The grain was fully ripe, in fact could have been cut several days earlier. The yield will be about 25 bushels to the acre.

A warrant has been sworn out by Elliott & McCrosby at the instigation of Mrs. Carpenter, for the arrest of the latter's husband, Mr. Geo. Carpenter, brakeman on the N.P., Morris-Brandon run, and Mr. Munnas Gosseline, the latter's father-in-law, charging them with housebreaking and robbery. Mrs. Carpenter states at the lives on Albert street, over Campbell's hardware warehouse, and supports herself. During Tuesday night, while she was away, it is charged that the two persons mentioned, broke the locks on the doors and carried off three loads of furniture to St. Boniface, where they stored it. Mrs. Carpenter claims the goods, and says her husband has no right to them. The furniture has nearly all been recovered. —Free Press.

The merchants of Morris have made an agreement regarding credit business. In a circular just issued, the scheme is explained as follows:—"It may be well to mention here that at a meeting of the board of trade in Winnipeg, elsewhere it was unanimously decided that the credit system was ruinous alike to the wholesale merchants, the retail merchants and the consumer, and that it was necessary to devise some scheme to do away with it to a great extent and to make it reasonable to those who are depending upon the credit system to carry them along from year to year. They have arranged this plan, for all who wish to take advantage of it, namely, to give six months credit, and sell for five months cash and cash only. This is the scheme we propose to carry out commencing on the 1st day of November 1894, until the 1st day of May 1895, when those who feel compelled to ask for credit or are desirable accounts will again be given the privilege of taking advantage of the credit for the period above mentioned—six months, the object of issue being to enable country merchants to compete in selling goods with our friends in large cities, and to increase the local trade by offering the public a material reduction in the price of goods."

INSURERS.

By Ald. Trotter re the crossing at C.P.R. track on Fifth street. Much discussion was evoked by this. Ald. Caldwell contending that its present condition was disgraceful and was not a practical joke.

Ald. Trotter made motion to expend \$100 in improving it. The motion was lost, it being stated that the city could not appropriate that amount by present financial condition, and also that the deed had not yet been received from the C.P.R. people giving them the crossing.

By Ald. Cameron, asking if the owners of the Syndicate block had paid their part of the expense in connection with the tile sidewalk in front of their building. The account had been made out and presented by Mr. McMillan, himself, and he had met with a rebuff and told the account would not be paid. Ald. Reesor being interested in the building said he had not seen the accounts. McMillan emphatically declared that he had presented him with a copy. Ald. Reesor, "anyway I do not know what they are going to do. If the other parties meet their objections I will mine, but not otherwise."

Telegraphic.

TORONTO, Sept. 10.—The Brampton county crown attorney has received a telegram from the Deputy minister of justice, saying that Thompson would not grant a new trial for McWhirrel. He is to hang Oct. 1.

THREE RIVERS, Sept. 7.—The boiler of J.A. Gagnier's saw mill exploded to-day, killing one man named Beaudin and injuring seven.

FURTHER PARTICULARS.

THREE RIVERS, Sept. 7.—Both ends of the boiler at Lagon mill blew out. Sam Beaudin, fireman, was found dead a hundred yards off, with the top of his skull blown off. He leaves a widow and three young children. Others were badly scalded and otherwise hurt.

MILWAUKEE, Wis., Sept. 10.—Twenty-four receivers of the Northern Pacific branch lines, appointed simultaneously by Judge Jenkins and the courts in Minnesota, have been retired under an arrangement between the receivers, the organization committee and the Farmers' Loan and Trust company of New York, by which a trust company will operate the lines for a limited sum per annum. By the arrangement, over \$800,000 per annum will be saved.

LOFTY, Pa., Sept. 6.—The little mining town in Scotch Valley, in Lackawanna county, was swallowed last night in one of the most complete mine cave-ins ever known in this region. Details are fragmentary. It is known, however, that the houses on either side of the principal streets of the hamlet are completely swallowed up in a gaping sink-hole. Nothing can be seen of other buildings in the town but the roof, gables and chimneys. It is impossible to estimate accurately the number of fatalities. The cave-in was caused by the giving away of the timber supports in the workings of Mount Lookout colliery, which have not been in operation for about two years, and have been neglected in consequence. Fifty miners imprisoned in the colliery were carried to the surface, where a great crowd of excited, panic-stricken people were awaiting them.

TORONTO, Sept. 7.—J. S. Coleman and Rev. J. E. Starr were successful at the children's court held by the Magistrate Kingsford yesterday, in their efforts to secure possession of five young children all under 6 years of age, that they found on an alleged baby farm at No. 2 Gladstone avenue, kept by Wm. Lee and his wife. Lee has been under suspicion of having kept a baby farm for some time past, and the police now think they have him within the grasp of the law. The evidence given yesterday revealed a horrible state of affairs. The children were all sleeping in one small, stuffy room, where, as the witness put it, "the light of the heaven's sun never entered," with no bed save a filthy matted quilt, spread on the floor and small pieces of flannel as a covering. When the police entered the stench was almost unbearable, as the room was entirely destitute of ventilation. Lying in one corner they found what they thought to be a bundle of rags, but on investigation it proved to be a three weeks old baby, clothed in filthy garments and the breath of life almost gone from its body. The child could not possibly have lived another day, and it is doubtful if medical skill can now save it from death. Its little body was raw from the toes to the small of the back, and the holes were filled with vermin. Another little girl, not more than four years of age presented a fearfully emaciated condition. Its little frame shrank almost to a skeleton and the touch of intelligence completely faded from its eyes. If this child's life is saved there is little hope of it ever being better than an idiot. When Mr. Starr went yesterday to execute the warrant, giving him possession of the children, he found them closed in a small yard, with a goat and a number of fowls as companions. The magistrate gave the children over to the Children's Aid Society, but it was feared the babe would die before the case was finished. Should the child die, Lee and his wife will be placed under arrest to answer to the charge of causing its death by negligence and ill treatment.

Police Court.

There seems to be a number of travelling gents around these hard times. How they manage to travel and yet show no "visible means of support" is to be conjectured.

Jno. Burnett was arraigned before magistrate Todd last Friday afternoon for being drunk and disorderly.

It appears he had the day before arrived from Calgary, and being thirsty imbibed very immoderately of hot toddy etc.

In the evening he careened into Fleming's drug store and proceeded to "do up" things generally. Snatching a hand-mirror and other small articles, he made happily very little damage was done. This over, he took up a bottle of perfume and withdrawing the stopper, threw it at the attendant in the hopes of "parading" his nose. The agile target, however, evaded the missile, and before he could recover himself, the invader had subsided, and disappeared with the bottle of perfume.

Policeman Hanna was called and a search made for the man, who was found lying on a straw heap with the empty bottle beside him.

When asked in court why he did it, he said "Oh! I suppose I was drunk."

In default of pay, the \$5 00 fine, he was handed over to Gov. Noxon's mercies for the next 21 days for being drunk and disorderly.

Sentence will be deferred on the charge of theft.

Baldur.

The grain is beginning to move here, and the crop is much better than was expected and Mr. Leslie is again on the market for Mr. Bawil.

Fowler's elevator is in full blast now and will no doubt handle a considerable share of the grain this season.

Mr. Frank Schultz is enlarging his buildings, and has neatly fitted up two rooms to be used as a private bank.

Mr. Geo. Playfair has completed his new dwelling house.

There is a good opening here for an enterprising man to run a cash business in Mr. Fowler's new brick building.

Every effort is being put forth so as to have a grand Agricultural Exhibition here this year.

The Orange Society at Baldur is one of the most prosperous branches of that Order under Bros. John Harrower and Frank Schultz.

Alexander.

ALEXANDER, Sept. 3.—Stacking about finished and threshing is the order of the day. The yield of wheat is about 13 bushels to the acre. C. E. Hall has threshed twenty-one of his 1,000 bushels of wheat, and Geo. Armstrong is threshing. He has a splendid sample of white Fyfe wheat. He will have about twenty-five thousand bushels of No. 1. James White is threshing about 1,000 a day of wheat since he started, for the last fourteen days. The elevators are running full time as there is lots of wheat coming in.

The Rev. G. Rogers, of Winnipeg, preached at Alexander for the English church on Sunday at 5 p.m.

The train runs good for the postmaster—at 10.35 at night and 4.17 in the morning—so that it is not much accommodation for the travelling public, as well as the C.P.R. agent here, but it is hoped it will soon change for the better.

Patriotism Before Business.

While the Vigilant was sustaining reported defeats from the Britannia at Clyde waters, the London Field published the statement that Mr. Gould thought the fault lay with the Vigilant's sails, and that he had applied to Messrs. Ratsey and Laphrore, of Cowes, to make him an English sail. This, however, the firm declined to do.

The correspondent of the New York Herald says:

"I saw Ratsey, the well known sail-maker of the firm of Ratsey & Laphrore, and asked him whether it was true that he had refused to supply the Vigilant with sails."

"Yes," replied Ratsey emphatically, "I did refuse the sails. I had done so previously in the case of a similar American racer, and in that of the Navahoe, an patriotic yacht. I consider that if an American yacht comes over here to race against the English cracker she should be entirely equipped with American material, by American workmanship—sails the same as everything else. I am not going to give the benefit of our experience to an American yacht. As the sails for her services and those of my men are entirely at the disposal of Mr. Gould, he has as attending to his own canvas in making alterations or repairs he may need. He has accepted those services. Further than that I cannot go."

"But are you providing him with a set of sails to race in American waters?" I asked.

"No; that I am not doing either."

Ratsey is a fine type of the tenacious Englishman, and had evidently made up his mind that patriotism came first and business afterwards.

"This much is true," he resumed, "Mr. Gould did apply to me to make him a set of sails to race with in the Lagoon waters for he considers those made over here superior to what he has got. He understood that they would not be used for racing against English boats. But how am I to know that the Vigilant will not leave his hands, become another's, and be sent down to race against the Britannia at Cowes?" The sails would go with him. So I refused."

Corbett Wins a Fight.

ORANGE, N.J., Sept. 8.—James J. Corbett, the world's champion pugilist, fought to a finish a six-round battle with Pete Courtney, of Trenton, yesterday at Edison's laboratory in front of the Kinestoscope. Four ounces gloves were worn. The manager of the Kinestoscope company, it is said, first tried to get John E. Sullivan to spar, but as he would have charged \$25,000 for his services the plan was given up. Corbett was then engaged, he agreeing to stand before any man for six rounds for \$5,000. An antagonist was found in Pete Courtney, a local pugilist of some fame, who has knocked out a number of men. But he was known to Corbett, and the agreement was made. Courtney was to receive \$500, and \$1,000 if he stood six rounds without being knocked out. Corbett's seconds were John McVey and Frank Belcher, while Courtney was attended by John Tracy and Ed. Allen. W. A. Brady was time-keeper and John Eckstein referee. Corbett sparred with his opponent during the rounds, but in the sixth he landed several hard blows, one of which apparently knocked out Courtney, he failing to respond to time.

The historic encounter was for the purpose of reproducing all the moves of the meet on Mr. Edison's new Kinestoscope. The battle was a secret one, only fifteen people being in attendance. Corbett easily won the contest, but he told Courtney that it was a harder fight than he had with Mitchell at Jacksonville.
